## THE MAIN MENU

The **Data Magic®** *Main Menu* ensures fast and easy navigation.

The Main Menu accesses the program by category, for example, everything in accounting is seen by clicking the Accounting button.

The *File Menu Bar* (at the top of the screen) is particularly useful when activating **multiple views** and it has all the same program choices as the Main Menu.

**Main Menu Features:**

- A clear user friendly navigational system throughout the program.
- The *File Menu Bar* has program choices grouped in classic order.
- The *Button Bar* has standard windows accelerator buttons.
- If you have multiple companies you can click the Logo to change companies.
- Configurable Toolbar and Status Bar.

**DATA MAGIC****EXTRAORDINARY  
BUSINESS  
SOFTWARE****Main Menu Benefits:**

- The File Menu Bar lists all *DMS* hotkeys.
- Direct link to the Internet from the File Menu Bar and the Menu.
- From the Menu you can edit or create a new Company, and control program attributes.
- User defineable setup options.
- **Data Magic®** updates across the Internet from the File Menu bar and the Menu.
